

Project Demo #1

Start Assignment

- Due Oct 6 by 12pm
- Points 12.5
- Submitting a file upload
- Available Aug 18 at 12am - Oct 6 at 11:59pm

Each team is required to

(1) **Demonstrate:**

- Data preparation and pre-processing results
- Current project data analytics results
- Earlier machine learning results and samples for your project targeted problems.

(2) **Submit:**

- Demo presentation powerpoint slides
- Demo video covering your presentation slides, the different items listed above and the current status of the platform you are building.

Demo 1 Rubrics

Criteria		Ratings		Pts
Data Pre-Processing	2.5 pts Excellent	2 pts Good	1 pts Poor	2.5 pts
Demonstrate data pre-processing results	Complete, correct, and clear demonstration of data pre-processing results for targeted project problems and requirements.	Correct and clear demonstration of data pre-processing results for targeted project problems and requirements.	Incomplete and/or incorrect demonstration of data pre-processing results for targeted project problems and requirements.	
Training and Test Data Preparation	2.5 to >2.0 pts Excellent	2 to >1.0 pts Good	1 to >0 pts Poor	2.5 pts
Demonstrate project training and test data results	Complete, correct and clear demonstration of the project preparation of training and test data related to project problems and requirements.	Correct and clear demonstration of the project preparation of training and test data related to project problems and requirements.	Incomplete and/or incorrect demonstration of the project preparation of training and test data related to project problems and requirements .	
Data Analytics Results	2.5 to >2.0 pts Excellent	2 to >1.0 pts Good	1 to >0 pts Poor	2.5 pts
Demonstrate project data analytics results	Complete, correct and clear demonstration of the project data analytics for project problems and requirements.	Correct and clear demonstration of the project data analytics for project problems and requirements.	Incomplete and/or incorrect demonstration of the project data analytics for project problems and requirements .	
On-going Machine Learning Results	2.5 to >2.0 pts Excellent	2 to >1.0 pts Good	1 to >0 pts Poor	2.5 pts
Demonstrate earlier machine learning results	Complete, correct and clear demonstration of high-quality on-going machine learning results based on the selected models for your project problems.	Correct and clear demonstration of high-quality on-going machine learning results based on the selected models for your project problems.	Incomplete and incorrect demonstration of project om-going machine learning results based on the selected models for project problems and requirements .	

Criteria	Ratings			Pts
Presentation Presentation for the Demo 1	2.5 to >2.0 pts Excellent Clear, coherent presentation of project Progress with effective communication, visuals, and logical flow.	2 to >1.0 pts Good Organized presentation with some minor issues in clarity, communication, or structure.	1 to >0 pts Poor Disorganized or unclear presentation with major issues in communication, flow	2.5 pts
Total Points: 12.5
